Hayward® Pool System Control

my  
dreampool.com

**HAYWARD®**

6:00 a.m.

Filter Cycle runs during off-peak energy hours, saving money.

11:00 a.m.

TempSeek™ feature automatically senses water temperature and adjusts to desired warmth.

3:30 p.m.

Pool cleaner vacuums pool. Chlorine and pH levels are checked.

## Ease, energy-efficiency and convenience – at your fingertips.

While owning a pool is a luxury, it's not often you can fully relax without taking the time to maintain it. Hayward® understands how precious your spare time is to you. And that moments of silence and relaxation are few and far between.

With the new line of Pool System Controls from Hayward, you can work on relaxing instead of working on your pool. You'll have control, ease, reliability and energy-efficiency at the touch of a button, making your life simpler and more enjoyable. So you can spend your time doing the things you want to do.

## The Totally Hayward System™ – the system that makes sense.

The Totally Hayward System™ incorporates high-quality components that work together to keep your pool at its very best. This system is

designed for optimal operation, longer life of components and maximum energy savings and pool enjoyment for you.

A Hayward Pool System Control is the foundation of the Totally Hayward System. Designed to manage your pool components for the best operation possible, the Hayward Pool System Controls enable you to set cleaning cycles, lighting dimness, filtration times and fill features. And with our wireless remote, managing your backyard environment is easier than ever. Your Pool System Controls from Hayward are the key to getting the best operation and longest life out of your pool components.

## A Complete Line of Hayward Pool System Controls

From the brand new Pool Boss™ to the deluxe wireless unit, Hayward's got it under control. Manage your core pool functions with the Pool Boss or control your entire backyard environment and spa from

🕒 5:00 p.m.

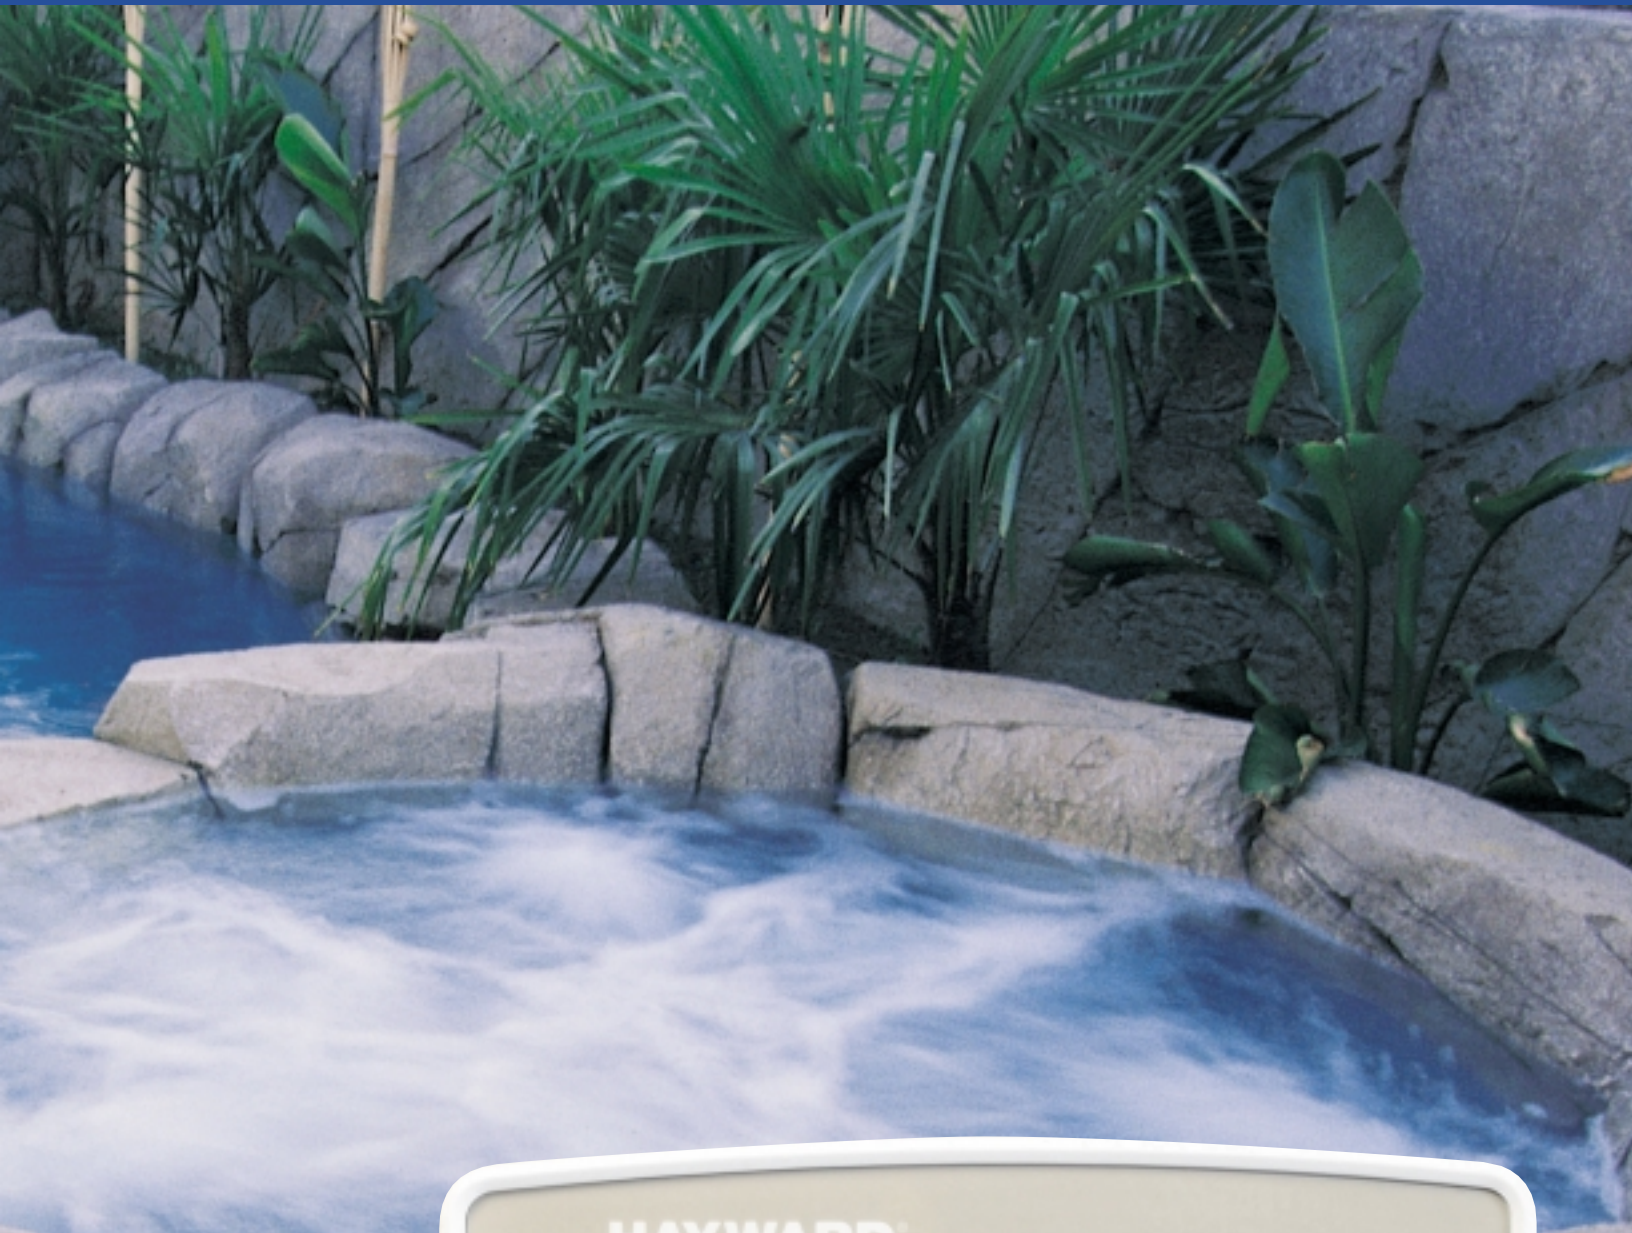

Mode changes from pool to spa in preparation for a relaxing evening.

🕒 7:30 p.m.

Landscape and pool lights set the backyard mood.

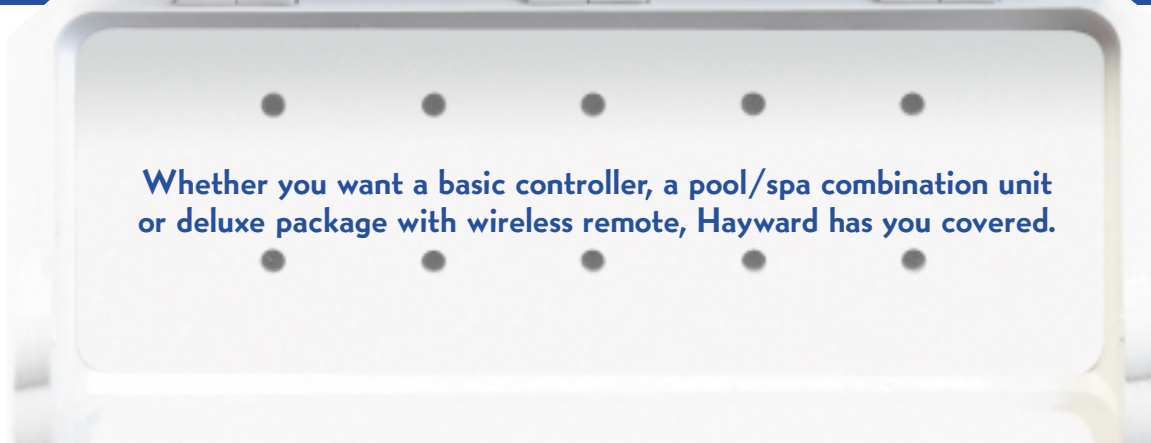

🕒 11:00 p.m.

Lights turn off, filter cycle begins and the day is complete.

anywhere in your yard with the deluxe wireless control. Each pool system control is a complete system. There are no surprise purchases or add-ons later. Once you install your control, you have all you need to make your pool exactly the way you want it. Ask your Hayward Select Dealer which control is right for your pool.

- PSC 2201/2202 Pool Boss
- PSC 2104/2105 Deluxe system
- PSC 2106/2109 Deluxe Wireless Control System
- PSC 2107 Wireless Pool and Spa upgrade
- PSC 2108 Wireless Spa control upgrade

**Whether you want a basic controller, a pool/spa combination unit or deluxe package with wireless remote, Hayward has you covered.**

## Saving energy, saving money.

Soaring power bills and energy blackouts aren't easy for a pool owner. At Hayward®, we understand your concerns and are doing our part to make a difference in your backyard and in your power bill. Investing in a Hayward Pool System Control enables you to control the operation time of cleaning and filtration cycles as well as the environment surrounding your pool. Setting your operation times during off-peak hours will help conserve energy. Hayward Pool System Controls are designed to meet your specific pool needs to provide maximum money savings and energy efficiency. Ask your local Hayward retailer for more information on other Hayward energy-efficient products for your pool.

## Backed by Hayward Select Builders.

The Hayward Pool System Controls are backed by an extensive network of Hayward Select Builders ready to answer your questions, discuss options, design your pool and build your backyard paradise just the way you want it. We want your pool to function at optimal performance levels. With the Hayward Pool System Controls, achieving perfection couldn't be easier. Simply log onto [www.haywardnet.com](http://www.haywardnet.com) to locate a Hayward Select Builder in your area.

## Create the perfect backyard environment.

With the simple touch of a button, you can control the vital pool functions as well as other features that you desire. Simply program your desired settings into the Hayward Pool System Controls one time and watch the magic happen. The water temperature rises to the perfect degree at just the right time. The lights dim as the evening goes by. The filtering cycle begins during off-peak hours. And you can relax inside or near your pool without lifting a finger. Leisure is truly a beautiful thing.

## Everything should be this easy.

The following features are available on the 2100 series of Hayward Pool System Controls:

- Indoor/outdoor installation.
- One-touch programming allows convenient access to all pool functions.
- Automated convenience features such as Waterfill and TempSeek™ adjust measurements according to your settings.
- Spa-side control enables you to control your spa's features while you relax.
- SuperCap Memory Recovery System™ retains your programming even during a power outage.
- Integrated dimmer system provides several lighting levels to create the perfect atmosphere.
