BeadCrete™
BY PEBBLE TECHNOLOGY USA

Illuminate your pool with a shimmering glass bead finish.

Crystal Series

ALL GLASS FINISH

Crystal Series is an elegant all glass bead pool finish that brings a unique combination of brilliance and natural color to your swimming pool. With the constant changing angle of the daytime sun, your pool finish will reflect crystal-like accents of light in a beautiful array of hues and shades. Choose from 12 elegant glass bead color combinations.

Jubilee

Luminous Series

PEBBLE AND GLASS BLEND FINISH

Luminous Series creates a finish that is truly unique by combining the natural beauty of PebbleTec® and PebbleSheen® finishes with an accent of our original and iridescent glass beads. Like a natural beach which shimmers and changes in the sunlight, your pool finish will illuminate with accents of color as the sun moves across the sky.

Tahoe Blue Luminous

Tahoe Blue

Blue Granite

White Diamonds

Aqua Blue

Look for more brilliant blends of glass beads with PebbleTec® and PebbleSheen® coming soon.

Actual finish and water color may differ from printed samples. Variations in color, shade and exposure are normal. The water's depth, angle of sunlight and surrounding landscape can all be determining factors. Actual finish samples produced by Pebble Technology, Inc. should be wet before viewing. Pebble Technology, Inc. strongly recommends viewing pools before deciding on a color. Your pool builder/installer may be able to provide pools to view.

Disclaimer: Some colors contain seashells, such as abalone and mother of pearl. The shells are made up of material from seawater and from a living mollusk. Due to the nature of shell materials and variables of water chemistry, Pebble Technology, Inc. cannot guarantee the shell materials themselves against changes in color or brilliance. See warranty form for all limitations.
