# LINER VAC

## CYCLONE LINER VAC MODEL LV 275-1

A powerful bypass blower specifically designed for vinyl liner installations and winterizing pools, the Cyclone offers:

- A heavy duty 2.75hp 115v 2 stage motor with long life brushes, producing 120 cfm on open flow and 140 inches of sealed pressure
- An optional 3.0hp 115v 3 stage motor with long life brushes producing 120cfm and 160 inches of sealed pressure
- A completely redesigned aluminum housing enclosed on all 4 sides for greater protection and durability
- 1.5 inch male adapter on inlet opening can easily be adapted to a variety of fittings
- A filter screen on inlet fitting protects motor from damage and can be readily removed and cleaned
